BeagleBone Webinar Series

Date	Time (UTC)	Topic
10th May	11:00 (CT) / 17:00 (UK)	Introduction to BeagleBoard.org and BeagleBone
24th May	11:00 (CT) / 17:00 (UK)	BeagleBone for Linux Users
6 th June	11:00 (CT) / 17:00 (UK)	BeagleBone for Embedded Developers
21 th June	11:00 (CT) / 17:00 (UK)	BeagleBone for Web Developers
12 th July	11:00 (CT) / 17:00 (UK)	BeagleBone Blue for Robotics
26 th July	11:00 (CT) / 17:00 (UK)	BeagleBone in the Classroom

Today's Topics

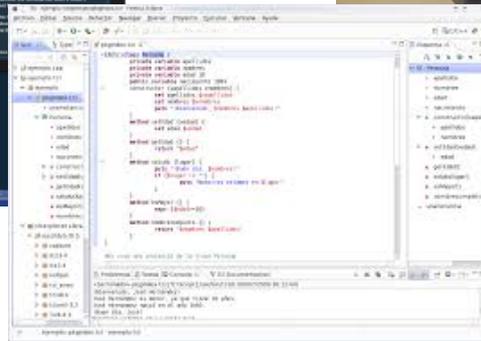

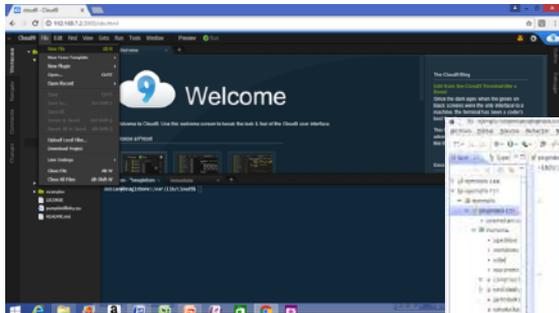

- Topics
 - What do we mean by Embedded Development ?
 - Which Languages are involved in Embedded Development?
 - Why use Assembly / C instead of something like Python
 - What are some tools for getting started in C/C++?
 - How to control the PRUs and hardware in low level languages
 - How to embed a BeagleBone into a product as a controller.
- Q&A
 - Posted Questions
 - Questions from chat

What do we mean by Embedded Development ?

Questions posted on the element14.com Community

- How do you interface with the GPIO within C / Assembly
- Which Languages would you recommend
- Would it be possible to explain the procedure of how to configure ADC with sampling rate clocked by some internal timer with data being transferred to a memory location using DMA? Or another example involving similar 3 connected components, including DMA?
- How to interface the 'Qt' framework on the beaglebone
- How do I start with configuring an analogue to digital converter with sampling rate clocked by some internal timer (of one exists) with data being transferred to a memory location using DMA?

Questions from the Webinar Chat.
